# ABOUT

At Exporto, we bring the timeless beauty of natural granite from Rajasthan—India's granite heartland—to the United Kingdom. Rooted in the ancient Aravalli Range, one of the world's oldest mountain belts, our granites reflect a legacy carved by nature over millions of years.

We source premium granite from across the globe and process it in India, where world-class craftsmanship meets cost-effective precision. This unique approach ensures our clients receive globally sourced stone with superior Indian finishing, renowned for its quality and value.

Specializing exclusively in the UK market, Exporto is well-positioned to meet the growing demand for high-quality natural stone in the construction and interior design sectors. Whether it's for luxury homes, commercial spaces, or architectural landmarks, we deliver stone that speaks of strength, elegance, and heritage.
